Niagara Binational Educational Partnership

This fund was initiated in 2001 by Frank Branscombe, a generous philanthropist from Ontario, Canada, and James V. Glynn, from Niagara Falls, NY, who saw the need to have a strong and long-standing educational partnership between Niagara University and Niagara College. Funds are to be sustained, and maintained, by both Niagara University and Niagara College for annual scholarship awards and educational initiatives. The endowed funds are used for the education of undergraduate and graduate students attending Niagara University, who are continuing their education from Niagara College, and who are preparing for careers with a focus on binational economic development.
